TD-S Soaping agent

TD-S is a soaping agent applied on any dyestuff and fiber with excellent dispersing and penetrating properties. It clears residual dyestuffs on fiber and makes the color brighter and promotes washing fastness.

General properties:

Appearance	:	Brownish liquid
Composition	:	Special surfactants compounds
Ionic nature	:	Nonionic/anionic
pH (1% solution)	:	7 +/- 1.0
Solubility	:	Easy to dissolve in cold water

Special features :

1. Excellent dispersing, charging and penetrating properties
2. Clears residual dyestuffs on fiber, makes the color brighter and promotes washing fastness
3. Low foaming property

Application :

Dosage depends on the dyed fiber/fabric & condition :

Soaping for reactive dyestuffs :

Recommend dosage :

TD - S : 1.0 ~ 2.0 g/l

Temp.×Time : 80 ~ 95°C ×15 ~ 20min.

Note : Full evaluation is recommended prior to commercial usage.
